T. ROWE PRICE OHA SELECT PRIVATE CREDIT FUND ANNOUNCES SEPTEMBER 30, 2025 FINANCIAL RESULTS AND DECLARED TOTAL DISTRIBUTIONS OF \$0.69 PER SHARE IN Q3 2025

New York (November 5, 2025) – T. Rowe Price OHA Select Private Credit Fund (the “Company” or “OCREDIT”) today reported financial results and total distributions of \$0.69 per share for the quarter ended September 30, 2025.

As private credit remains a key driver of financing solutions within credit markets, OCREDIT closed the third quarter with the addition of 9 new portfolio companies across a diverse range of industries, representing portfolio net growth of nearly \$212.5 million. OCREDIT’s \$2.7 billion investment portfolio is now comprised of exposure to 125 portfolio companies across 21 unique sectors, and a weighted average portfolio yield of 10.5%. “OCREDIT’s portfolio yield remains high and attractive even with compression of base rates over the last quarter. Private credit remains attractive, especially relative to its liquid market counterparts, delivering 100-200 basis points¹ of premium,” said Eric Muller, OCREDIT’s Chief Executive Officer. “As we look forward, we are excited about the growing demand for private credit loans from our private equity sponsors to allow us to continue to be selective with our investments to seek to provide high and stable income in today’s environment.”

QUARTERLY HIGHLIGHTS⁴

- Inception-to-date² annualized total return of 12.04%³;
- Net investment income per share was \$0.65 with weighted average yield on debt and income producing investments, at amortized cost of 10.5%⁴, and earnings per share were \$0.73;
- Distributions declared were \$0.69 with a dividend yield of 10.3%;
- Net asset value per share as of September 30, 2025 was \$26.94;
- Gross investment fundings were \$377.2 million;
- Debt-to-equity as of September 30, 2025 was 0.80x, which was consistent with June 30, 2025;
- The Company had total net debt outstanding of \$1,200.7 million with a weighted average interest rate of debt of 6.9%. In the third quarter, OCREDIT entered into a fourth commitment increase agreement (the “Fourth Commitment Increase Agreement”) to the JPM Credit Agreement. The Fourth Commitment Increase Agreement provides for, among other things, an increase in the total aggregate commitments from lenders under the revolving credit facility governed by the JPM Credit Agreement from \$955.0 million to \$1,030.0 million.
- During the third quarter of 2025, the Company issued 920,195 of Class I common shares for proceeds of \$24.7 million, 630,157 of Class S common shares for proceeds of \$16.9 million, and 2,240,906 of Class D common shares for proceeds of \$60.3 million. From October 1, 2025

¹ A basis point is a unit of measurement in finance, represented as 1/100th of 1%.

² Inception is November 14, 2022.

³ Annualized total return based on net asset value calculated as the change in net asset value per share during the respective period, assuming distributions that have been declared are reinvested on the effects of the performance of the Company during the period. **Past performance is no guarantee of future results.**

⁴ Computed as (a) the annual stated interest rate or yield plus the annual accretion of discounts or less the annual amortization of premiums, as applicable, on income producing securities, divided by (b) the total relevant investments at amortized cost or fair value, as applicable.

through November 5, 2025, the Company received total proceeds of \$59.3 million from common shareholders in connection with its public offering.⁵

- Subsequent to quarter end on October 22, 2025, the Company declared a regular distribution of \$0.20 per share and a variable supplemental distribution of \$0.03 per share, for total distributions of 0.23 per share, which is payable on or about November 26, 2025 to common shareholders of record as of October 31, 2025.

For a more detailed description of OCREDIT's investment guidelines and risk factors, please refer to the prospectus. Consider the investment objectives, risks, and charges and expenses carefully before investing or sending money. For a free prospectus containing this and other information, call 1-855-405-6488 or visit www.ocreditfund.com. Read it carefully.

OCREDIT is a BDC, which offers individual investors access to private lending, historically only accessible to institutions and high-net-worth investors. At least 70% of a BDC's investments must be in U.S. private companies with less than \$250 million in market capitalization.

OCREDIT is a non-exchange traded BDC that expects to invest at least 80% of its total assets (net assets plus borrowings for investment purposes) in private credit investments. An investment in OCREDIT involves a high degree of risk. An investor should purchase securities of OCREDIT only if they can afford the complete loss of the investment.

Neither the SEC nor any state securities regulator has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Securities regulators have also not passed upon whether this offering can be sold in compliance with existing or future suitability or Regulation Best Interest standard to any or all purchasers.

For OCREDIT's full historical performance figures, please visit <https://www.troweprice.com/en/us/ocredit/> performance for more information.

As of September 30, 2025, OCREDIT is available in 54 states and territories.

As of September 30, 2025, OCREDIT is not registered for offer or sale outside of the United States.

BDCs may charge management fees, incentive fees, as well as other fees associated with servicing loans. These fees will detract from the total return.

OCREDIT may in certain circumstances invest in companies experiencing distress increasing the risk of default or failure. OCREDIT is not listed on an exchange which heightens liquidity risk for an investor. OCREDIT has limited prior operating history and there is no assurance that it will achieve its investment objectives. The Company's public offering is a "blind pool" offering and thus investors will not have the opportunity to evaluate the Company's investments before they are made. Investors should not expect to be able to sell shares regardless of performance and should consider that they may not have access to the money invested for an extended period of time and may be unable to reduce their exposure in a market downturn.

OCREDIT employs leverage, which increases the volatility of OCREDIT's investments and will magnify the potential for loss. Fixed-income securities are subject to credit risk, call risk, and interest rate risk. As interest rates rise, bond prices fall. Investments in high-yield bonds involve greater risk than higher rated bonds. International investments can be riskier than U.S. investments and subject to foreign exchange risk.

OCREDIT is "non-diversified," meaning it may invest a greater portion of its assets in a single company. OCREDIT's share price can be expected to fluctuate more than that of a comparable diversified fund. OCREDIT may invest in derivatives, which may be riskier or more volatile than other types of investments because they are generally more sensitive to changes in market or economic conditions.

Account opening and closing fees may apply depending on the amount invested and the timing of the account closure. There may be costs associated with the investments in the account such as periodic management fees, incentive fees, loads, other expenses or brokerage commissions. Fees for optional services may also apply.
