T. ROWE PRICE OHA SELECT PRIVATE CREDIT FUND ANNOUNCES DECEMBER 31, 2025 FINANCIAL RESULTS AND DECLARED TOTAL DISTRIBUTIONS OF \$0.69 PER SHARE IN Q4 2025

New York (March 11, 2026) – T. Rowe Price OHA Select Private Credit Fund (the “Company” or “OCREDIT”) today reported financial results and total distributions of \$0.69 per share for the quarter ended December 31, 2025.

As private credit remains a key driver of financing solutions within credit markets, OCREDIT closed the fourth quarter with the addition of 16 new portfolio companies across a diverse range of industries, representing portfolio net growth of nearly \$210.1 million. OCREDIT’s \$2.9 billion investment portfolio is now comprised of exposure to 135 portfolio companies across 22 unique sectors, and a weighted average portfolio yield of 10.0%. “OCREDIT remains focused on disciplined underwriting, portfolio quality, and risk management amid a volatile and dynamic market environment,” said Eric Muller, OCREDIT’S Chief Executive Officer. “Private credit continues to play an important role for investors, supported by fundamental credit selection, structural protections, and direct engagement with borrowers. We believe these characteristics position the asset class well to navigate periods of uncertainty.”

For a more detailed description of OCREDIT's investment guidelines and risk factors, please refer to the prospectus. Consider the investment objectives, risks, and charges and expenses carefully before investing or sending money. For a free prospectus containing this and other information, call 1-855-405-6488 or visit www.ocreditfund.com. Read it carefully.

OCREDIT is a BDC, which offers individual investors access to private lending, historically only accessible to institutions and high-net-worth investors. At least 70% of a BDC's investments must be in U.S. private companies with less than \$250 million in market capitalization.

OCREDIT is a non-exchange traded BDC that expects to invest at least 80% of its total assets (net assets plus borrowings for investment purposes) in private credit investments. An investment in OCREDIT involves a high degree of risk. An investor should purchase securities of OCREDIT only if they can afford the complete loss of the investment.

Neither the SEC nor any state securities regulator has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Securities regulators have also not passed upon whether this offering can be sold in compliance with existing or future suitability or Regulation Best Interest standard to any or all purchasers.

For OCREDIT's full historical performance figures, please visit <https://www.troweprice.com/en/us/ocredit/performance> for more information.

As of December 31, 2025, OCREDIT is available in 54 states and territories.

As of December 31, 2025, OCREDIT is not registered for offer or sale outside of the United States.

BDCs may charge management fees, incentive fees, as well as other fees associated with servicing loans. These fees will detract from the total return.

OCREDIT may in certain circumstances invest in companies experiencing distress increasing the risk of default or failure. OCREDIT is not listed on an exchange which heightens liquidity risk for an investor. OCREDIT has limited prior operating history and there is no assurance that it will achieve its investment objectives. The Company's public offering is a "blind pool" offering and thus investors will not have the opportunity to evaluate the Company's investments before they are made. Investors should not expect to

be able to sell shares regardless of performance and should consider that they may not have access to the money invested for an extended period of time and may be unable to reduce their exposure in a market downturn.

OCREDIT employs leverage, which increases the volatility of OCREDIT's investments and will magnify the potential for loss. Fixed-income securities are subject to credit risk, call risk, and interest rate risk. As interest rates rise, bond prices fall. Investments in high-yield bonds involve greater risk than higher rated bonds. International investments can be riskier than U.S. investments and subject to foreign exchange risk.

OCREDIT is "non-diversified," meaning it may invest a greater portion of its assets in a single company. OCREDIT's share price can be expected to fluctuate more than that of a comparable diversified fund. OCREDIT may invest in derivatives, which may be riskier or more volatile than other types of investments because they are generally more sensitive to changes in market or economic conditions.

Account opening and closing fees may apply depending on the amount invested and the timing of the account closure. There may be costs associated with the investments in the account such as periodic management fees, incentive fees, loads, other expenses or brokerage commissions. Fees for optional services may also apply.
